REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the references of record neither reveal nor render obvious the recited combination including the use of a measured band gap reference, hereafter BGR, value, by a central processing unit, hereafter CPU, in order to calibrate the positive analog supply voltage, hereafter AVDD, of an analog to digital converter, hereafter ADC.

U.S. Patent 6,724,176 to Wong et al discloses the use of a BGR circuit [240] to calibrate an ADC [205] but does not describe the use of a CPU to monitor AVDD. U.S. Patent 6,133,719 to Maulik provides a BGR circuit. U.S. Patent 5,668,551 to Garavan et al couples a calibration circuit [14] to an ADC [12] and a BGR circuit [13] but does not monitor AVDD as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick G. Wamsley whose telephone number is (571) 272-1814. The official facsimile number is (703) 872-9306.
